NO-COST ENERGY-SAVING RESOLUTIONS FOR 2017

For most of us, sticking to those New Year's resolutions is easier said than done. This year, keep it simple with a pledge to conserve more energy — you'll be helping the environment and saving money year round.

HERE ARE 10 NO-COST WAYS TO GET STARTED:

- Wait for a full load before running your dishwasher and washing machine.
- Use cold water to wash your clothes.
- Clean the lint filter in your dryer after every load.
- During winter season lower thermostat setting by 2 degrees.
- Turn off ceiling fans when you leave the room.

- Replace or clean your air-conditioning filters once a month.
- Unplug electronics when not in use.
- Use sunlight and window shades for a no-cost heating or cooling boost.
- Conserve water by taking quick showers instead of baths.
- Find more energy-saving opportunities and lower your utility costs with a free in-home audit and rebate opportunities from Beaches Energy.
