STAY SAFE AND INFORMED with Special Needs Registration

Beaches Energy recognizes that our customers have many different needs. We offer services to help you and your loved ones including:

MEDICAL SUPPORT NOTIFICATION

Customers who depend on specialized electric medical equipment like apnea monitors, nebulizers, and oxygen machines can register to be notified if a scheduled service outage is expected to last an extended period of time. We will do everything possible to restore their service quickly. **For more information, call 904-247-6281.**

MEDICAL RESOURCES DURING EMERGENCY SITUATIONS

If you or a family member has a disability or needs evacuation assistance, register with Duval County Emergency Preparedness to ensure you stay safe and sheltered by calling 904-630-2472 and in St. Johns County at 904-824-5550.

FLORIDA RELAY COMMUNICATIONS

It's important to us that all our customers can easily communicate with our customer service team. Hearing and speech-impaired customers can contact us through the Florida Relay Center. The voice line is 800-955-8770; the TTY (text telephone) is 800-955-8771.

GROW YOUR SAVINGS, **NOT YOUR BILL**

Learn new ways to save with the **NEW My Utility Planner** – the free, online home audit that delivers personalized tips designed to help you conserve energy, reduce waste and save money.

My Utility Planner has the same great functionality as My Energy Planner, with more valuable insights including tips for **reducing your family's carbon footprint and household waste.**

Visit **BeachesEnergy.com/MyUtilityPlanner** to get started.

Meet Joshua Funches, Lineman Apprentice

"My favorite part of the job so far is riding through a neighborhood after we get the lights on and hearing the cheers. It's amazing.

I started as a meter reader. I used to see the linemen riding around and thought, *I want to be one of those guys.* The unexpected thing about this job is the knowledge you need to have coming into it. A lot of people know you need to be more mechanical and use tools, but there's a lot of troubleshooting and math. Once you catch on, it's second nature.

I'm most looking forward to training the new guys coming in, and to be able to pass that knowledge on."
