HELP PROTECT OUR NESTING SEA TURTLES

In Florida, May 1st means the start of one of our most beautiful natural events - sea turtle nesting season. Florida is the largest nesting area in the world for the Northwest Atlantic Ocean Loggerhead. At Beaches Energy, we are passionate about helping mother turtles and their offspring stay safe and protected.

How Beaches Energy is helping:

- Working with the Beaches Sea Turtle Patrol to turn off street lights at beach access points where nests are present
- Developing state-of-the-art, turtle-safe lighting to be installed at beach accesses
- Promoting Beaches Sea Turtle Patrol recommendations to all Beaches Energy customers

How you can help:

- Restrict or shield direct beachfront light from your home or landscape
- Avoid unneeded light, noise or movement on the beach at night
- Do not walk or cycle on beach dunes
- Do not disturb sea turtle tracks, eggs, adults or hatchlings

COMING THIS SUMMER!

Help us keep it #CleanDarkFlat.

Stay tuned on [BeachesEnergy.com](https://www.beachesenergy.com) and social media for updates on this year's fundraising and awareness campaign to help protect our nesting sea turtles.

SCAMMERS USING NEW TACTICS TO FOOL CUSTOMERS

Utility customers are continuing to receive scam phone calls that state their power is being turned off for a past due bill and demanding the customer to make payment immediately. **Scammers are now even using popular money sharing apps including Zelle and CashApp.**

Don't fall for it—learn more about how to spot a utility scam at [BeachesEnergy.com/Scams](https://www.beachesenergy.com/scams).

Meet Maira Miller, Customer Account Specialist I

"My favorite part of working here is the customers, and helping them. We have such a great team here that when we go and help our customers, it's not just one person. There's a team of us trying to help a customer as much as possible. It's nice when we're able to help those that are going through hard times, but it also pulls at your heartstrings, too."
