Call 811 Before Beginning Fall Projects

BEACHES | ENERGY
S E R V I C E S

FALL PROJECTS? CALL 811!

With cooler weather and holiday plans on the horizon, it's a great time to start planning your outdoor home improvement projects. But before you grab your shovel, don't forget to call 811.

When you notify 811, representatives for local utility companies will come out and mark any underground lines in your yard. After that, dig away! Just be careful to keep your work at least two feet from the nearest marker.

Why 811? Digging before identifying utility lines could lead to dangerous accidents or power outages for the entire community.

Learn more at sunshine811.com or by calling today.

THE BENEFITS OF PUBLIC POWER

Did you know Beaches Energy Services is a public utility? In fact, we're one of just 33 public utilities remaining in the state of Florida. In honor of Public Power Week, here's what that means for you:

Local Control

We are focused on delivering reliable, efficient service to our community every day.

Affordable

We are a not-for-profit entity with the goal of keeping the cost of power as low as possible.

Reliable

When the lights go out, we work as quickly and safely as possible to restore it.

Community-Focused

We're proud to support our local economy and watch our community thrive.
