STOP SCAMS IN THEIR TRACKS

These days, it seems utility scams have become a common risk for people across the country. Fortunately, these calls can be easy to spot once you know what to look for.

- Payment scams are unsolicited calls from people claiming to work for Beaches Energy, demanding instant payment over the phone. **Remember, we will never do this.**
- Energy audit scams involve people calling or showing up at your home to sell you energy-related equipment. **If you never requested this service, it's not Beaches Energy.**
