HURRICANE SEASON BEGINS

Floridians should prepare for the possibility of strong winds and buckets of rain because hurricane season is on the way! Beginning June 1 and ending November 30 in the Atlantic, hurricane season means more than just “hunkering down.” Follow these steps to ensure your family is ready in the event that a major storm makes an appearance:

Stay informed – track hurricane watches and warnings

Create a disaster kit with essential items

Make a safe evacuation plan just in case you need to leave the area

Use generators safely

Call 904-247-6171 if your power is out and you need help restoring it

Make a plan for your pets – take health precautions, designate a shelter location, prepare a kit of your pet’s essentials and keep an eye on them

HOW TO LOWER YOUR ELECTRIC BILL ALL SUMMER LONG

As we transition into the warmer months, we understand that keeping your home comfortable can sometimes lead to higher electric bills. That’s why it’s important to be mindful of our collective energy usage. Beyond saving money, conserving energy plays an important role in environmental preservation!

BEAT THE HEAT WITH THESE TIPS AND TRICKS THAT KEEP YOU, YOUR WALLET AND THE ENVIRONMENT IN MIND.

- Unplug any devices not currently in use (appliances, chargers, power strips, etc.)
- Try using fans instead of A/C
- Keep doors and vents closed
- Get to gardening! Plants and trees provide cooling shade
- Keep your thermostat temperature just cool enough to keep you comfortable – no need to overdo it
