# PLANNING AHEAD FOR THE YEAR

Now is the perfect time to get a jump on your plans for 2025. Whether you're moving, renovating, or simply looking to optimize your energy use and save money on your bill, we have a few tools that can make life a whole lot easier.

## MY UTILITY PLANNER

Want to take control of your energy bill in 2025? Check out My Utility Planner! Get a free home energy audit in just a few minutes and discover new ways to save money and make your home more energy efficient.

Get started today by visiting [BeachesEnergy.com/MUP](https://BeachesEnergy.com/MUP)

## START, STOP, OR TRANSFER SERVICE

Starting service at a new address, stopping service at your old one, or transferring to a different location can all be done quickly and in just a few steps.

### Easy Ways to Make Service Changes for Your Home or Business:

Visit [BeachesEnergy.com/start-service](https://BeachesEnergy.com/start-service)

Call 904-247-6241

Email [CustomerCare@BeachesEnergy.com](mailto:CustomerCare@BeachesEnergy.com)

## BILL ESTIMATOR

In just a few seconds, you can get an estimate on your predicted energy bill. Visit [BeachesEnergy.com/MyBillEstimator](https://BeachesEnergy.com/MyBillEstimator) to get started today.

Let's make 2025 a breeze by planning ahead and using these helpful tools to save time, money, and energy.

## SPRING INTO SAFETY: CALL 811 BEFORE YOU DIG

As spring approaches, many homeowners are looking forward to refreshing their landscaping, updating irrigation systems, or tackling home improvement projects. Plan ahead by calling 811 before digging! It's the law, and it helps protect yourself and your neighbors from natural gas leaks.

Learn more about natural gas by visiting [BeachesEnergy.com/natural-gas](https://BeachesEnergy.com/natural-gas)

## IMPORTANT INFORMATION ABOUT METER READERS

Each of Beaches Energy's 35,000 customers has an electric meter at their home. From Neptune Beach to Palm Valley, Beaches Energy meter readers visit neighborhoods throughout the month to read your home's electric meters. We know seeing someone unexpected in your yard can be alarming, but it's important for meter readers to access your meter.

To help you identify our meter readers, they will be wearing a shirt with the Beaches Energy logo and arrive weekdays between 7:00am and 4:00pm. They are simply part of our normal operations, and there is no need for concern.

For more details about our meter reading process, or if you have any questions, you can visit [BeachesEnergy.com/meters](https://BeachesEnergy.com/meters)

## ELECTRIC PRICE FOR 1,000 KILOWATT-HOURS
