A LOOK BACK AT 2025 AND AHEAD TO 2026

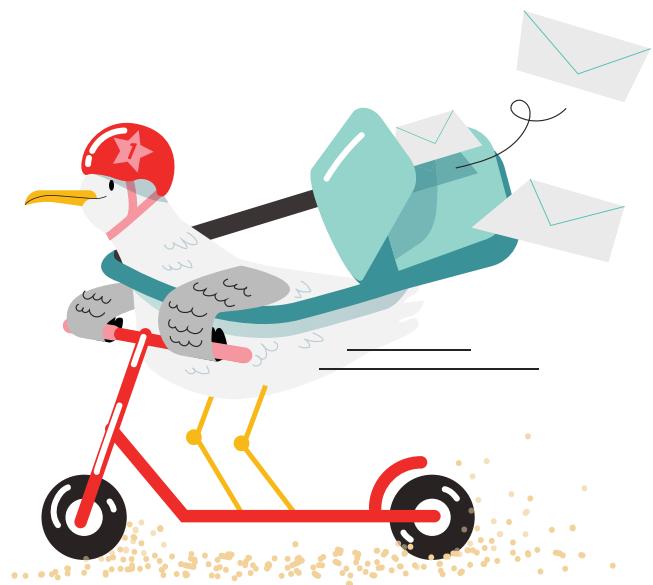

Dear Valued Customer,

As we enter 2026, Beaches Energy Services is proud to reflect on another year of progress and commitment to our Mission: to provide reliable energy services at a competitive price with superior customer service that is Above and Beyond the Expected.

Every investment and initiative we undertake is guided by a single goal: delivering safe, reliable, and affordable energy with exceptional service to the communities we serve.

A YEAR OF ACCOMPLISHMENTS

In 2025, we continued strengthening the foundation of our electric system to ensure long-term reliability and resiliency. Our teams advanced key infrastructure improvements, enhanced system performance, and furthered our commitment to operational excellence. These efforts help safeguard service quality, minimize outages, and ensure we remain well-prepared for future growth and challenges.

LOOKING FORWARD TO 2026

Our focus remains on providing high value to our customers — keeping rates competitive, maintaining reliability, and continuing to modernize our systems. We will also introduce new tools and technologies to improve customer experience, such as enhanced outage communication.

At Beaches Energy, our success is powered by the trust of our customers, the dedication of our employees, and the strength of our community partnerships. Together, we are building a resilient and sustainable energy future that goes Above and Beyond the Expected.

Thank you for your continued support and confidence in Beaches Energy Services.

Warm regards,

Allen Putnam
Director, Beaches Energy Services

PLANNING FOR THE FUTURE

Looking ahead, we are collaborating with industry experts to develop a comprehensive 10-year Capital, Operational, and Maintenance (COM) Plan. This plan will guide our investments and decision-making to:

Prioritize system enhancements that maintain and improve reliability.

Strengthen maintenance programs and operational efficiencies.

Support long-term financial planning through cost-of-service modeling and strategic resource management.

ELECTRIC PRICE FOR 1,000 KILOWATT-HOURS

Rate Component	December	January
Residential Base Charge	\$4.50	\$4.50
kWh Base Charge	\$91.24	\$91.24
Bulk Power Cost Adjustment	\$24.05	\$24.05
Total Rate Billed per 1,000 kWh	\$119.79	\$119.79
